

## Seedsowers Montessori Vision statement

**"To establish a fun, interactive, Bible-based educational facility. Staffed with creative, nurturing, Christ centered teachers, administrators, and volunteers, we are dedicated to coming along side the parent during the early stages of mental, physical, emotional and spiritual growth of their child."**

Seedsowers Montessori has four key phrases that direct the school:

### **-Creative-**

When you walk into the Seedsowers Montessori School you will instantly see incredible thought and inspiration. We know that each school provides services to the parents, but at Seedsowers we know that if we serve the children we will in turn serve the parents. Our experience has proven that if the child is not drawn into the environment, we have to be more creative in our approach, presentation and service.

### **-Interactive-**

You will not see an employee of Seedsowers Montessori who does not interact and engage with each student at his or her level. The staff sits and works with the students, encourages interaction in the classroom between students. Each "Work" or "Job" is designed for use by individuals or groups. The creative focus at Seedsowers provides each child with projects to submerge himself/herself in each and every interactive area of the school.

### **-Faith Based-**

Our foundation rests upon acknowledging Jesus Christ as Lord and Savior, and the Bible as the Word of God—the final authority in truth and practice. This school lives upon our Faith in Christ Jesus as Lord.

### **-Parent Involvement-**

The Bible teaches that parents have the responsibility of training and disciplining their children so that they might be brought up knowing the Word of God and honoring the Lord. Seedsowers goal is to help direct the child in making decisions that are concurrent with the discipline that has been instilled within a Christian home. We rely on parents to help us though prayer, cooperation, and active involvement in the life of the school.
